SCOTT TEAR
UI DEVELOPER

scotttear@gmail.com
07855 764 072

69 Melville Road. Walthamstow
London. E17 6QT

profile.

Naturally creative individual, passionate about UI/UX front end development with an eye for design.

Over a decade of experience in digital media, working with various digital agencies and brands applying a solid skill set to every project, large or small.

Accomplished in various design and development techniques including HTML5/CSS3, SASS/LESS, vanilla javascript/es6/jQuery, single page applications, responsive mobile first approach, PHP (MVC), webpack/grunt/gulp and mark up templating engines, virtual build environments, CMS (Wordpress/Sitecore/Umbraco/Asgard), cross browser compatibility, agile/scrum and extensive knowledge of Adobe creative suite and Sketch/Zeplin.

Always looking to learn new skills and techniques to improve work flow and further career as a working professional. Works at a fast pace, enjoys role in a team environment and uses a mac but knows his way around a PC.

Outside of working hours can usually be found at a gig somewhere in East London.

VIEWDIGITAL
Permanent
Jul '00 - Feb '04

Joined a smaller agency with a smaller more focused team in Lincolnshire. Role continued as a developer and designer working on some exciting projects and was able to improve my client facing skills by meeting with account managers and directors, taking design briefs and scoping time and costs of upcoming projects.

Wilkinson Sword / Young's / Quorn / Mars / BBC

THE ENERGY CELL
Permanent
Jul '00 - Feb '04

Spent 4 years serving a design and production apprenticeship at a digital agency based in North East Lincolnshire working with a group of talented design and developers, learning about multimedia, print and digital. The team worked for some large FMCG brands and I was fortunate to be involved in most of the projects.

Heinz / BT / Lego / Famous Grouse / Maxxim / Skyhopper

education.
